

Times-2 Speed Files® = Space Management

- Times-2 provides for better floor space utilization by storing more material in less space.
- Times-2 can eliminate half the aisles due to its rotating capabilities.
- Times-2 systems using add-on units are even more efficient based on shared space!

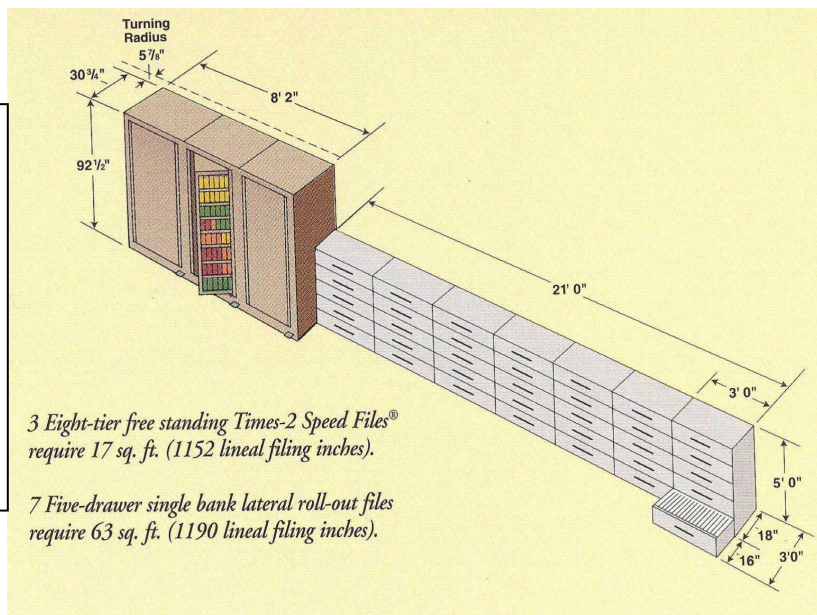

20 - 4-drawer lateral files 42" wide equals 3200 linear filing inches.

10 Times-2 Units with 7 openings provides 3360 linear filing inches.

Space gain of 190 sq. ft.

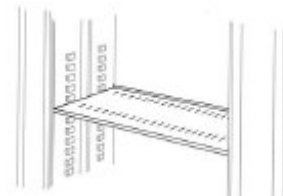

Interconnect multiple height units to fit your space!

Times-2 Speed Files® = Versatility

- Create custom systems to meet client needs with off-the-shelf components.
- Mix and match any combination of accessories!
- Change out internal components in seconds allowing for long-term functionality.
